Ride Assist Naperville (RAN) was founded in April, 2016, with the mission of providing affordable and dependable transportation to medical appointments for Naperville seniors and their caregivers.

Sadly, we are moving slowly due to lack of funding. We have received significant pro bono assistance:

- Laptop computer, printer, keyboard, mouse, speakers, monitor
- Office supplies, office space

Donate online:

[RideAssistNaperville.org/donate](http://RideAssistNaperville.org/donate)

However, some operational needs require cash:

- Scheduling software: \$100/month \$1,200
- Insurance: \$3,400 \$3,400
- Background checks: \$52.50/each \$2,100
- Marketing (website, brochures): \$3,500
- Fees & training expenses: \$1,200 \$1,200
- **First Year Funds Needed \$11,400**

 **THE**  
 **MAX LACEWELL**  
 **FOUNDATION**

The Max Lacewell Foundation, LLC. Was established by Max's family to finance medical research for pediatric brain tumors, including DIPG pediatric brain stem tumors. Diffuse Intrinsic Pontine Glioma brain stem tumors are extremely rare. [MaxLacewell.org](http://MaxLacewell.org)

Approximately 150-200 cases per year are reported nationwide, which unfortunately, relegates this form of cancer to "orphan" status within the medical research community, as too few children develop these type of brain tumors to warrant the necessary investment of scarce medical research dollars to find a cure. Because these tumors could not be biopsied until recently, what little research that is being done uses adult blastomas as proxies for DIPG research. The problem is blastomas are not a very good proxy for DIPG's. The Max Lacewell Foundation will raise funds and awareness to support meaningful research in the pursuit of a cure for DIPG.
